

Kelly Kuoch

Front End Developer

Profile

I am a dedicated Computer Science student at California State University, Fullerton, passionate about crafting engaging user experiences. My academic journey is fueled by a goal to become a proficient front-end developer. I am eager to apply my knowledge to real-world projects and contribute to the dynamic technology field by building intuitive, user-centered interfaces. With each line of code, I strive to merge technical skills with creative vision, aspiring to innovate and drive progress within the digital landscape.

Experiences

COVID-19 Death Prediction Project at CSUF, Fullerton

April 2022 — May 2022

Collaborated on a project to forecast daily COVID-19 deaths across countries using linear modeling. Utilized two primary datasets: daily COVID death records and demographic data. Streamlined and integrated the datasets, followed by visual analysis via scatterplots comparing recent deaths to new cases per country.

Chinese Tutor at Cerritos College, Norwalk

May 2019 — August 2021

Proficient in Chinese, having transitioned from learning it as a second language to becoming a tutor. Leveraged deep understanding of the language to guide and assist students in their learning journey.

Data Entry Clerk at Cerritos College, Norwalk

August 2018 — March 2019

Skilled data entry clerk from Cerritos College's purchasing department. Proficient in accurate data input, purchasing processes, and team collaboration. Known for meticulous attention to detail and efficient time management.

Education

Bachelor of Science, California State University, Fullerton, Fullerton

January 2022 — May 2024

Senior Computer Science student at CSUF, graduating in May 2024.

Associate's Degree, Cerritos College, Norwalk

August 2019 — December 2021

Graduated from Cerritos College with an associate degree in computer science.
